COCHRANE & AREA APPLICATION

# BACKGROUND INFORMATION

## 2014 APPLICANTS

### HOME TREASURES THE LITTLE STORE THAT COULD...

Home Treasures is a Nonprofit Organization which funds many worthy causes and initiatives in Cochrane, AB and surrounding area. We operate on the belief that everyone deserves the nice & necessary, and are fueled by a team of inspiring volunteers who dedicate their time to make everyone's experiences enjoyable. Your dollars and donations go towards providing families in need with necessary household items, as well as contributing to community initiatives that improve the quality of life for your neighbours and peers. By taking in second hand goods we are able to remove a larger portion out of the waste stream we produce as a community. It is the ultimate form of reusing and recycling – AND – supporting community employment and funding initiatives. We work closely with local organizations to maintain our focus on our founding initiatives.

On November 1, 2002 Home Treasures opened and was and still is run by a nonprofit society, Treasures For Your Home Society. To foster caring, empathy and awareness in our community we are actively seeking local community groups interested in assisted funding to support their own cause, or another as identified.

Local community groups, teams and charitable organizations can apply to volunteer in the store. In exchange for these volunteer hours, the Society will donate funds to the group or cause as identified in this application. The Home Treasures Team will provide training and guidance for the duration of the groups volunteer hours.

Applications are required to be filled out completely, and must allow for 5-10 business days to be processed.

Groups must be:

- a nonprofit organization
- based in Cochrane and have more than 50% of active members residing in Cochrane
- be an accredited and legitimate organization

Groups must provide:

- the enclosed application in full (PART 1 & 2)
- three options for availability in 4 hour increments for any on the following shifts.
